

Year 7 Catch-up Funding Report 2017-2018

What is Catch-up Funding?

The literacy and numeracy catch-up premium gives schools additional funding (£500 per pupil) to support Year 7 pupils who did not achieve the expected standard in reading or maths at the end of Key Stage 2 (KS2). All state-funded schools with year 7 pupils receive this funding.

The money is to be used by schools to deliver additional tuition, intensive support in small groups, or to deliver any initiatives that will enable pupils to be at the expected level in Maths and English so that they are more likely to succeed at secondary school.

The funding is not ring-fenced for catch-up activities but it is expected that this funding is used for additional literacy and numeracy catch-up during Year 7 given that this can make a critical difference to pupils at this important stage.
